

KUL BAKSHI

AI Engineer

ABOUT ME

I am currently pursuing a B.Tech in Computer Science Engineering with a specialization in AI and ML. I am passionate about technology and continuously learning new skills in software development. Along with my academics, I am also learning web development. I enjoy creating responsive and interactive web applications. I am interested in both frontend development and emerging AI technologies.

EDUCATION

Kurukshetra University, Haryana
2024-2028

Bachelor's Of Technology

Currently pursuing Bachelor of Technology with a specialization in Artificial Intelligence and Machine Learning. Studying at one of Haryana's well-known universities with a focus on technical education, innovation, and practical learning while developing skills in web development and programming.

PERSONAL PROJECTS

Accessible College Events Website

- I created an accessible college events website designed to ensure all students can easily discover and participate in campus activities.

[GitHub Repo](#)

Personal Portfolio Website

- I designed and developed a personal portfolio website to showcase my projects, skills, and achievements in a clean and modern interface.
