ABOUT ME

Aspiring Machine Learning and AI enthusiast with hands-on experience in developing and deploying machine learning models using Python. I have worked on projects including Fake News Detection, Fake Job Posting Detection, Emotion Detection, and House Price Prediction using algorithms such as XGBoost and NLP techniques. I enjoy solving real-world problems through data analysis, machine learning, and artificial intelligence, and I am continuously improving my skills by building practical projects and exploring new technologies.

EDUCATION

(2024 - 2028)

KURUKSHETRA UNIVERSITY

Bachelor's of Technology [Computer Science and Engineering]

TECH SKILLS

- Machine Learning
- HTML , CSS
- JavaScript
- React
- Nodejs
- Java
- SQL Database

LANGUAGES

Hindi

English

WORK EXPERIENCE

• AUG - 2026

PRERNAGATI AND TECHNOLOGY PVT. LTD.

Successfully completed a 45-day internship focused on Machine Learning with Python, gaining hands-on experience in data preprocessing, exploratory data analysis, feature engineering, model training, evaluation, and prediction. Worked with Python libraries such as NumPy, Pandas, Matplotlib, Scikit-learn, and XGBoost and developed practical ML projects including classification and regression models.

- Machine Learning With Python
- Data Analysis and Evaluation

• AUG - 2025

PRERNAGATI AND TECHNOLOGY PVT. LTD.

Successfully completed a 45-day internship focused on Python Basics, gaining practical knowledge of Python programming and problem-solving. Learned and applied concepts including variables, data types, conditional statements, loops, functions, data structures, file handling, exception handling, and basic object-oriented programming. Developed small practical programs to strengthen programming and logical thinking skills.

- Python and Functions
